**136.010**      **PURPOSE.** The purpose of the Exclusive Farm Use (EFU) zone is to provide areas for continued practice of commercial agriculture. It is intended to be applied in those areas composed of tracts that are predominantly high-value farm soils as defined in OAR 660-033-020 (8). These areas are generally well suited for large scale farming. It is also applied to small inclusions of tracts composed predominantly of non-high value farm soils to avoid potential conflicts between commercial farming activities and the wider range of non-farm uses otherwise allowed on non-high value farmland. Moreover, to provide the needed protection within cohesive areas it is sometimes necessary to include incidental land unsuitable for farming and some preexisting residential acreage.

To encourage large scale farm operations the EFU zone consolidates contiguous lands in the same ownership when required by a land use decision. It is not the intent in the EFU zone to create, through land divisions, small scale farms. There are sufficient small parcels in the zone to accommodate those small scale farm operations that require high value farm soils. Subdivisions and planned developments are not consistent with the purpose of this zone and are prohibited.

To minimize impacts from potentially conflicting uses it is necessary to apply to non-farm uses the criteria and standards in OAR 660-033-130 and in some cases more restrictive criteria are applied to ensure that adverse impacts are not created.

Non-farm dwellings generally create conflicts with accepted agricultural practices. Therefore, the EFU zone does not include the lot of record non-farm dwelling provisions in OAR 660-033-130 (3). The

provisions limiting non-farm dwellings to existing parcels composed on Class IV-VIII soils [OAR 660-033-130 (4)] are included because the criteria adequately limit applications to a very few parcels and allow a case by case review to determine whether the proposed dwelling will have adverse impacts. The EFU zone is intended to be a farm zone consistent with OAR 660 Division 033 and ORS 215.283.

**136.020**      **PERMITTED USES.** Within an EFU zone no building, structure or premise shall be used, arranged or designed to be used, erected, structurally altered or enlarged except for one or more of the following uses:

- (a) Farm uses (see farm use definition).
- (b) The propagation or harvesting of a forest product.
- (c) Buildings, other than dwellings, customarily provided in conjunction with farm use.
- (d) Reserved.
- (e) Alteration, restoration, or replacement of a lawfully established dwelling with filing of the Declaratory Statement in Section 136.100 (c), when the dwelling:
  - (1) Has a “Percentage Good” rating of 40 percent or more in the current County Assessor’s records.
  - (2) In the case of replacement, the replaced dwelling is removed, demolished or converted to an allowable non-residential use within three months of the occupancy of the replacement dwelling.
  - (3) In the case of replacement of a manufactured dwelling, the unit to be replaced is a manufactured home as defined in ORS 446.003 [manufactured after June 15, 1976].
  - (4) If the dwelling to be replaced is located on a portion of the lot or parcel not zoned EFU, SA (Special Agriculture) or FT (Farm Timber), the applicant shall execute and record in the deed records a deed restriction prohibiting the siting of a dwelling on that portion of the lot or parcel. The restriction imposed shall be irrevocable unless a statement of release is placed in the deed records for the county. The release shall be signed by the county or its designee and state that the provisions of this section regarding replacement of dwellings have changed to allow the siting of another dwelling.
- (f) Operations for the exploration for geothermal resources as defined by ORS 522.005 and oil and gas as defined by ORS 520.005, including the placement and operation of compressors, separators, and customary production equipment for an individual well adjacent the wellhead. Any activities or construction relating to such operations shall not be a basis for an exception under ORS 197.732.
- (g) Operations for the exploration for minerals as defined by ORS 517.750.
- (h) Widening of roads including public road and highway projects as follows:

- (1) Climbing and passing lanes within the street right-of-way existing as of July 1, 1987.
  - (2) Reconstruction or modification of public streets, including the placement of utility facilities overhead and in the subsurface of public roads and highways along public right-of-way, but not including the addition of travel lanes, where no removal or displacement of buildings would occur, or no new parcels result.
  - (3) Temporary public street detours that will be abandoned and restored to original condition or use at such time as no longer needed.
  - (4) Minor betterment of existing public street related facilities such as maintenance yards, weigh stations and rest areas, within rights-of-way existing as of July 1, 1987, and contiguous public-owned property utilized to support the operation and maintenance of public streets.
- (i) Creation of, restoration of, or enhancement of wetlands.
  - (j) On-site filming and activities accessory to filming, as defined in Section 136.140(a), if the activity would involve no more than 45 days on any site within a one-year period.

**136.030**      **DWELLINGS PERMITTED SUBJECT TO STANDARDS.** The following dwellings may be established in the EFU zone with filing of the Declaratory Statement in Section 136.100 (c), subject to approval by the Director, based on satisfaction of the standards and criteria listed for each type of dwelling pursuant to the procedures in Section 110.680.

**Primary Farm Dwellings**

- (a) A single-family dwelling customarily provided in conjunction with farm use. The dwelling will be considered customarily provided in conjunction with farm use when:

    - (B) The subject tract produced in the last two years or three of the last five years at least \$80, 000 in gross annual income from the sale of farm products. In determining gross annual income from the sale of farm products, the cost of purchased livestock shall be deducted from the total gross income attributed to the tract. Only gross income from land owned, not leased or rented shall be counted.
    - (C) The subject tract is currently employed for the farm use that produced the income required in paragraph (B) of this subsection.

These covenants, conditions, and restrictions can be removed only and at such time as the property described herein is no longer protected under the statewide planning goals for agricultural and forest lands or the legislature otherwise provides by statute that these covenants, conditions and restrictions may be removed and the authorized representative of the county or counties in which the property subject to these covenants, conditions and restrictions are located executes and records a release of the covenants, conditions and restrictions, consistent with OAR 660-006-0027.

    - (C) On a lot or parcel on which the primary farm dwelling is not located, when the secondary farm dwelling is limited to only a manufactured dwelling with a deed restriction filed with the County Clerk. The deed restriction shall require the additional dwelling to be removed when the lot or parcel is conveyed to another party. Occupancy of the additional farm dwelling shall continually comply with subsection (1) of this section; or
    - (D) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing on the farm operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. The County shall require all accessory farm dwellings approved under this subsection to be removed, demolished or converted to a nonresidential use when farm worker housing is no longer required; or
    - (E) On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is located on a lot or parcel at least the size of the applicable minimum lot size and the lot or parcel complies with the gross farm income requirements in subsection (4) below, whichever is applicable.

- (4) The primary farm dwelling to which the proposed dwelling would be accessory satisfies the following criteria:
    - (A) On land not identified as high-value farmland, the primary farm dwelling is located on land that is currently employed for farm use and produced at least \$40,000 gross annual income from the sale of farm products in the last two or three of the last five years; or

  - (6) For the case in which the applicant has requested a deferred replacement permit, the dwelling to be replaced shall be removed or demolished within three months after the deferred replacement permit is issued. A deferred replacement permit allows construction of the replacement dwelling at any time. If, however, the established dwelling is not removed or demolished within three months after the deferred replacement permit is issued, the permit becomes void. The replacement dwelling must comply with applicable building codes, plumbing codes, sanitation codes and other requirements relating to health

and safety or to siting at the time of consideration. A deferred replacement permit may not be transferred, by sale or otherwise, except by the applicant to the spouse or a child of the applicant.

- (7) If the dwelling to be replaced is located on a portion of the lot or parcel not zoned EFU, SA or FT the applicant shall execute and record in the deed records a deed restriction prohibiting the siting of a dwelling on that portion of the lot or parcel.

The restriction imposed shall be irrevocable unless a statement of release is placed in the deed records for the county. The release shall be signed by the county or its designee and state that the provisions of this section regarding replacement dwellings have changed to allow the siting of another dwelling.

### **Other Uses**

- (i) Utility facilities necessary for public service, including wetland waste treatment systems, but not including commercial facilities for the purpose of generating electrical power for public use by sale or transmission towers over 200 feet in height. A facility is “necessary” if it must be situated in the EFU zoning order for the service to be provided. An applicant must demonstrate that reasonable alternatives have been considered and that the facility must be sited in an EFU zone due to one or more of the following factors as found in OAR 660-33-130(16):
  - (1) Technical and engineering feasibility;
  - (2) The proposed facility is locationally dependent. A utility facility is locationally dependent if it must cross land in one or more areas zoned for Exclusive Farm Use in order to achieve

a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

- (3) Lack of available urban and non-resource lands;
  - (4) Availability of existing right-of-way;
  - (5) Public health and safety; and
  - (6) Other requirements of state and federal agencies.
    - (A) Costs associated with any of the factors listed above may be considered, but cost alone may not be the only consideration in determining that a utility facility is necessary for public service. Land costs shall not be included when considering alternative locations for substantially similar utility facilities and the siting of utility facilities that are not substantially similar.
    - (B) The owner of a utility facility approved under this section shall be responsible for restoring, to its former condition as nearly as possible, any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the utility facility from requiring a bond or other security from a contractor or otherwise imposing upon a contractor the responsibility for restoration.
    - (C) The applicant shall address the requirements of 136.060(a).
    - (D) In addition to the provisions above, the establishment or extension of a sewer system as defined by OAR 660-011-0060(1)(f) in an Exclusive Farm Use Zone shall be subject to the provisions of OAR 660-011-0060.
    - (E) The provisions of this subsection do not apply to interstate natural gas pipelines and associated facilities authorized by and subject to regulation by the Federal Energy Regulatory Commission.
- (j) Parking of not more than seven log trucks on a tract when the use will not:
    - (1) Force a significantly change in accepted farm or forest practices on surrounding lands devoted to farm or forest use.
    - (2) Significantly increase the cost of accepted farm or forest practices on surrounding land devoted to farm or forest use.
  - (k) Fire service facilities providing rural fire protection services.
  - (l) Irrigation canals, delivery lines and those structures and accessory operational facilities associated with a district as defined in ORS 540.505.

- (m) Utility facility service lines. Utility facility service lines and accessory facilities or structures that end at the point where the utility service is received by the customer and that are located on one or more of the following:
  - (1) A public right-of-way;
  - (2) Land immediately adjacent to a public right-of-way, provided the written consent of all adjacent property owners has been obtained; or
  - (3) The property to be served by the utility.
- (n) Subject to the issuance of a license, permit or other approval by the Department of Environmental Quality under ORS 454.695, 459.205, 468B.050, 468B.053 or 468B.055, or in compliance with rules adopted under ORS 468B.095, and with the requirements of ORS 215.246, 215.247, 215.249 and 215.251 the land application of reclaimed water, agricultural process or industrial process water or biosolids for agricultural, horticultural or silvicultural production, or for irrigation in connection with a use allowed in an Exclusive Farm Use Zone under this division.

**136.050**      **CONDITIONAL USES.** The following uses may be permitted in an EFU zone subject to obtaining a conditional use permit and satisfying the criteria in Section 136.060(a), and any additional criteria, requirements, and standards specified for the use:

- (a) The following criteria apply to all conditional uses in the EFU zone:
- (1) The use will not force a significant change in, or significantly increase the cost of, accepted farm or forest practices on surrounding lands devoted to farm or forest use. Land devoted to farm or forest use does not include farm or forest use on lots or parcels upon which a non-farm or non-forest dwelling has been approved and established, in exception areas approved under ORS 197.732, or in an acknowledged urban growth boundary.
  - (2) Adequate fire protection and other rural services are, or will be, available when the use is established.
  - (3) The use will not have a significant adverse impact on watersheds, groundwater, fish and wildlife habitat, soil and slope stability, air and water quality.
  - (4) Any noise associated with the use will not have a significant adverse impact on nearby land uses.
  - (5) The use will not have a significant adverse impact on potential water impoundments identified in the Comprehensive Plan, and not create significant conflicts with operations included in the Comprehensive Plan inventory of significant mineral and aggregate sites.

**Non-farm Dwellings**

- (b) The following additional criteria apply to non-farm dwelling requests:
- (1) The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through Class VIII soils that would not, when irrigated, be classified as prime, unique, Class I or Class II soils. Soils classifications shall be those of the Soil Conservation Service in its most recent publication, unless evidence is submitted as required in Section 136.130.
  - (2) The dwelling will be sited on a lot or parcel that does not currently contain a dwelling and was created before January 1, 1993. The boundary of the lot or parcel cannot be changed after November 4, 1993 in any way that enables the lot or parcel to meet the criteria for non-farm dwelling.
  - (3) The dwelling will not materially alter the stability of the overall land use pattern of the area. In making this determination the cumulative impact of possible new non-farm dwellings on other lots or parcel in the area similarly situated shall be considered. To address this standard, the following information shall be provided:

- (A) Identify a study area for the cumulative impact analysis. The study area shall include at least 2000 acres or a smaller area not less than 1000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or non-resource uses shall not be included in the study area;
- (B) Identify within the study area the broad types of farm uses (irrigated or non-irrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, non-farm, hardship, etc.), and the dwelling development trends since 1993. Determine the potential number of non-farm dwellings that could be approved under Section 136.050(a), including identification of predominant soil classifications and parcels created prior to January 1, 1993. The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible non-farm dwellings under this provision;
- (C) Determine whether approval of the proposed non-farm dwellings together with existing non-farm dwellings will materially alter the stability of the land use pattern. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential non-farm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase, lease farmland, acquire waste rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area.

### **Home Occupations**

- (c) Notwithstanding Sections 119.270 and 120.075, home occupations, including the parking of vehicles in conjunction with the home occupation and bed and breakfast inns, are subject to the following criteria:

  - (4) The special setback in (1) shall not be applied in a manner that prohibits dwellings approved pursuant to ORS 195.300 to 195.336 nor should the special setback in (1) prohibit a claimant’s application for homesites under ORS 195.300 to 195.336.

    - (A) All parcels wholly or in part within 500 feet of the subject parcel shall be identified.
    - (B) The average (mean) size of all parcels larger than 40 acres identified in paragraph (A) of this subsection shall be determined.
    - (C) The acreage size calculated in paragraph (B) of this subsection, rounded to the nearest 10 acres, is the minimum parcel size unless such parcel size is less than 80 acres, in which case the minimum parcel size is 80 acres.
